

Reflection Checklist

For a Practice & Reflect Response

Instructions

Write a reflection using the rubric and checklist below and post it to the discussion forum. To prepare a complete reflection, be sure to do the following:

1. Explain how you implemented a technique from the module, describe what worked well, and share student responses or reactions to the technique.
2. Describe any challenges you encountered, explain what may have led to those challenges, and include student reactions or responses.
3. List the next steps you will take, explain why you are taking these steps, and include a time frame.

Reflection Checklist

To write a complete reflection, be sure to include the following:

1. Successes

- Name the technique you implemented from the module and explain how you chose to implement it in your classroom
- Describe what worked well
- Provide examples of student reactions and/or responses that indicate the implementation of the technique was successful

If there were no successes,

- Name the technique you implemented from the module and explain how you implemented it in your classroom
- Describe the positive outcomes you were expecting
- List at least one strategy that could be used to improve the outcome

2. Challenges

- Describe any challenges you encountered when implementing the technique
- Explain what may have led to those challenges
- Provide examples of student responses and/or reactions

If there were no challenges,

- Discuss possible challenges that may arise when using this technique
- Explain why these challenges may arise

3. Next Steps

- List the next steps you will take to implement a technique from the module
- Explain why you are taking these steps
- Include a time frame
