00:20:12 Christine Ferrell: Please use the Q&A function in your Zoom Webinar toolbar to post your comments and questions. We will answer as many as possible.

00:21:40 Christine Ferrell: If you don't hear answers to your questions, please know we may be holding some for the Q&A discussion at the end of the webinar. We will also try to answer any remaining questions following the webinar and post on the webinar discussion page. We will share that page url later in the webinar.

00:23:58 Christine Ferrell: Closed captions are not available during the webinar. However, we will post a recording of the webinar, with closed captions, as well as a transcript of the webinar, afterward. We will email this to you, as well.

00:42:03 Christine Ferrell: A few of you mention having trouble seeing Mike's video; we are looking into this.

00:43:33 Christine Ferrell: Hello everyone. Mike does not have PowerPoint slides, which is why you may only see him talking, but no slides.

00:44:43 Christine Ferrell: I believe we've been able to fix the technical issue. I think we had a bandwidth issue! I hope you are all able to see Mike well now.

00:45:54 Christine Ferrell: Mike's website: <https://anth101.com>

00:47:04 Christine Ferrell: We will share Mike's drawings with you all in the discussion page. We will share the link to that page later in this webinar and plan to post materials by tomorrow. We will email you links to all the materials.

01:06:42 Christine Ferrell: Hello, I have been going through your questions (which we hope to answer as many as possible). Many of you have asked if we can share the information Mike shared during his time. Yes, we will share that as part of our follow up. We will share tomorrow an email. In that email, we will link you to a wrap up and discussion page. In that page, we will provide links to: 1) webinar recording with closed captions, 2) webinar transcript, 3) webinar audio recording, 4) related resources. We'll ensure one of the related resource is a wrap up of Mike's points he shared. We do apologize for the technical issue we had!
